ABOUT ME

I am a self-taught, as well as bootcamp graduate, junior frontend developer, eager to keep on learning. I am passionate about creating innovative solutions aiming for smooth user experiences while keeping a high functionality. I love organization and structure and therefore put a high emphasis on clean code with a mobile-first approach to ensure responsive design.

SKILLS

- HTML
- CSS
- JAVASCRIPT

FRAMEWORKS/TOOLS

- BULMA
- BOOTSTRAP

PERSONAL PROJECTS

- **MAZE** (bit.ly/a-mazingproject)
Using matter.js I created a maze where the user have to find the way in a randomised map to the goal controlling a circle.
- **MOVIE FIGHT** (bit.ly/moviefight)
Based on Javascript I made an app that compares two selected movie. I used OMDb's API to access the needed data. Styling made with Bulma CSS.
- **SCORE KEEPER** (bit.ly/sckeeper)
Score keeper is one of my very first Javascript projects, where the users can track a friendly ping-pong match's score sheet with my app. Styling made with Bulma CSS.
